WARNING SYSTEMS

Rearsense Waterproof Camera DVR
Robust driving video recorder

A robust 2 or 4 camera DVR solution for heavy commercial use

Key Advantages

- Fully waterproof : robust commercial product

- Lockable : locked unit ensures access can be managed—preventing break away of SD card and data damage

- SD card operation : stable long recording and easy to access and review

- Option of 2 or 4 camera feed

- Maintains same programme to review on computer as previous models

- Robust all die casting case—6.8G vibration test

- Can link to current Rearsense cameras and monitors

Product Features

# Rearsense Waterproof Camera DVR
Robust driving video recorder

Technical Specifications

4-camera DVR

2-camera DVR
